

## Description

The K10 is a medium size trapezoidal loudspeaker that houses a long excursion 10" and a high frequency 1 inch compression driver. It has a really extended bass performance for such a small volume, with a well balanced mid and high section. The cabinet is made of birch plywood, painted in weatherproof texture black finish.

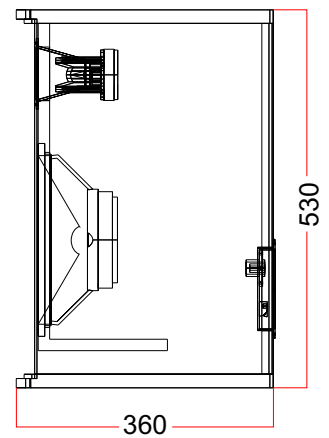

## Applications

The K10 can be used in a wide variety of different situations: pubs, discos, small live reinforcements, theaters, restaurants, commercial centers,...
